

Boost your sales with the most durable retractable banner display

A visual impact in just a few steps.

The assembly of the duo.set is reduced to the minimum. One minute to open the carry case, put up the pole and set up the graphic. This is fast - very fast - without tools or parts to fit together.

The duo.set unit is a **road-warrior** self-contained in a sturdy extruded aluminum casing for transport or storage. Designed to bring a guaranteed reliability, the duo.set integrates a built-in tension-adjustment system. The duo.set can accommodate any type of media, whatever the thickness of the graphic.

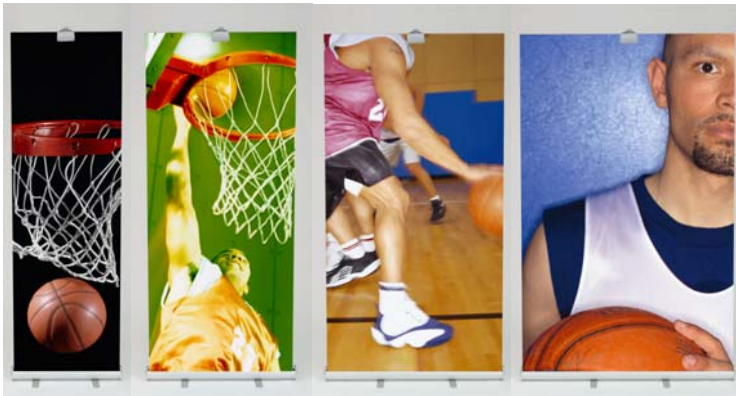

1. The duo.set retractable banner system is designed in a unique extruded aluminum casing. The graphic is well protected, rolled-up inside the casing. The duo.set features 2 twisting stabilizing feet for perfect stability.
2. The road warrior is protected inside the casing in a bag. All components are transported at once with optimized compact dimension. The 3-piece shock-corded pole ensures the holding of the pole once extended
3. The head of the pole offers a very easy set-up of the graphic. The top aluminum suspending hanger, adhesived on the graphic, is bend-resistant and prevents any edge curling effect.

4. The duo.set features a unique *Easy Change of Image* mechanism. The duo.set carries a strong mesh leader strip with a PVC Slide & Go plastic extrusion. The leader strip includes a reinforced stopping-hole. The stopping-hole of the leader strip goes into the foot base in order to block the leader strip.
5. The floodlight can be inserted on the special groove located on the head of the pole.
6. Designed to bring a guaranteed reliability, the duo.set integrates a built-in tension adjustment system that can accommodate most any type and thickness of rollable media. For only 2 cents, you can unlock the system and release the interdependent endcaps in order to adjust the tension.

YOU DESERVE THE ORIGINAL!

The duo.set family gathers several standard sizes available: 600 mm, 850 mm, 1000 mm and 1200 mm.

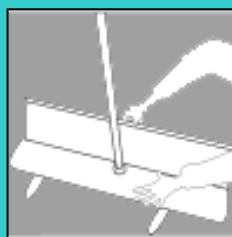

Make an impact anywhere you need a big graphic in a small space. Our duo.set is effective and a breeze to set up – simply raise the spring-loaded graphic panel from its base! The graphics give you sharp images and brilliant colors which are sure to bring attention to your marketing message. The graphic is protected during transportation and storage within the banner stand casing. The duo.set features a unique *Easy Change of Image* mechanism thanks to an exclusive PVC *Slide & Go* plastic extrusion.

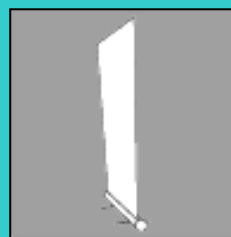

It is not a luxury to count on **THE ORIGINAL duo.set**
